Dear Prof. Nelson:

This letter will inform you of my understanding of your faculty appointment at Brandeis University.

You will be considered for tenure in the third year of your appointment as associate professor, that is, in the 1997-1998 academic year. If your tenure candidacy is successful, you will become a tenured associate professor effective September 1, 1998. If your tenure candidacy is unsuccessful, your fourth year of appointment, that is, the 1998-1999 academic year will be the terminal year of this appointment.

Please continue to be in touch with Prof. Dolbear about standards and procedures for tenure consideration.

Sincerely,

A handwritten signature in cursive script that reads "Robin Feuer Miller".
